

# PANEL CURVE

The Panel Curve is an ST20 mesh panel in 800 mm width with special cut-outs in the middle tubes, making it possible to bend when installing it on site.

Panel Curve is supplied flat which makes it easy to transport. During the installation, when fixed between the posts, it can be bent and replace a 90-degree corner.

## FACTS

ART. NO	COMPONENTS
20080631	Panel ST20 2050x800 Curve
