

PANEL ST PC

The polycarbonate ST PC panel is suitable for applications where you need full visibility. Polycarbonate is a naturally transparent thermoplastic. It is both a heat resistant and flame retardant material with excellent fire performance which makes it a good option for machine guarding environments.

The 3 mm polycarbonate sheets are fixed to the panel frame from the inside with screws, making it very strong and impact resistant. The ST PC panel is tested to withstand an impact of 1600 joules together with our Smart Fix system.

Standard panels are available in 8 widths, from 200 mm to 1500 mm to fit a system height of 2200 mm. Standard colour for the panel frame is black RAL 9005, and the panels can be supplied in any colour of your choice.

FACTS

ART. NO	COMPONENTS	HEIGHT (mm)	WIDTH (mm)	MESH SIZE (mm)	FRAME (mm)
31020606	Panel ST PC 2050x200 3mm	2050	200	Polycarbonate	30x20
