

# ACCESSORIES ACL

You can easily adapt the Troax anti-collapse system to your pallet rack. Our anti-collapse system is mounted using brackets that fit the majority of racks. Accessories including fixings and fasteners complete the system and the range also include cut-profiles for adjusting the mesh panels in places where standard measurements are not perfect.

There is also a kit for high assembly when the ACL screen is higher than the pallet rack.

With our Floor Fixing Anti-Collapse, you can combine a partitioning wall with an anti-collapse screen.

Our Speed Bolt will speed up the assembly time.

## FACTS

ART. NO	COMPONENTS
35700329	Kit Speed Bolt (20pcs)
35800801	Cut prof. UR/ST20 L=200
35800811	Cut prof. UR/ST20 L=300
35800821	Cut prof. UR/ST20 L=700
35800841	Cut prof. UR/ST20 L=1000
35800851	Cut prof. UR/ST20 L=1200
