

PANEL UX450

Troax Medium is based on the UX 450 mesh panel, an alternative that suits the need for a higher level of protection. Troax UX 450 is a stable mesh partition that protects against break-ins. The mesh, constructed from press welded 3x3.75 mm wires, is welded to a 30x20 mm tubular frame for added strength. The mesh aperture 50x50 mm makes it almost impossible to get a hand through. The smooth assembly makes UX 450 adaptable to almost every type of premises. This storage system suits both narrow and wide spaces, regardless of ceiling height. It is compatible with Troax UR 350 and Troax UX 550. The panel is available in 8 widths between 200 mm up to 1500 mm.

FACTS

ART. NO	COMPONENTS	HEIGHT (mm)	WIDTH (mm)	MESH SIZE (mm)	FRAME (mm)
