

# PANEL UR350

If you need a storage space where there is a low risk of break-in, choose the UR 350 panel, which is the backbone of Troax Classic. This panel provides you with a light and airy storage environment. UR 350 can also be used as a partition wall in our other systems. The mesh, constructed from press welded 2.5 mm wires with mesh aperture 50x50 mm, is welded to a 19x19 mm tubular frame for added strength. The panel is available in 8 widths between 200 mm up to 1500 mm.
