

UNI-BRACKET

The Uni-bracket is constructed of 3mm thick pre-galvanized steel and will provide excellent protection. It can be bolted to the rack in 4 different ways and is very flexible and strong. And together with the unique Kit Uni-bracket secure, the panel will stay in place in case of an accident. It is, together with the whole Anti-Collapse System successfully, tested to withstand an impact of 2500 Joules.

The Uni-brackets are available in stand-off dimensions from 50mm to 400mm.

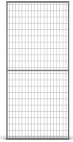

Compatible panels are UR 300 and UR 350.

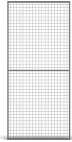

FACTS

| ART. NO | COMPONENTS |
|----------|-------------------|
| 25510108 | Uni-bracket 50mm |
| 25510118 | Uni-bracket 100mm |
| 25510128 | Uni-bracket 150mm |
| 25510138 | Uni-bracket 200mm |
| 25510148 | Uni-bracket 250mm |
| 25510158 | Uni-bracket 300mm |
