

SAFETY BARRIER / TRAFFIC BARRIER

The Steel barrier is a fast way to secure and separate working areas and traffic routes from each other. It provides an optimal protection for inventory and employees. The eye-catching colour will get your attention before a possible accident. Choose the lighter diameter for pedestrian areas and the robust one where there is a risk of collision with vehicles.

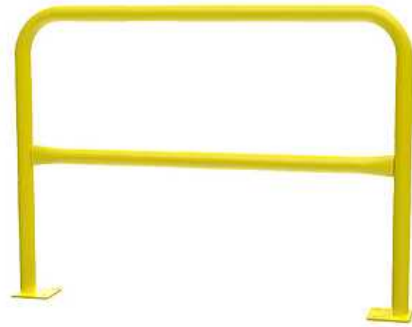

Available in 3 different types

Diameter: 60 mm / 90 mm

Height: 1100 mm

Length: 1100 mm / 1500 mm / 2000 mm
