

JULIET

The swing door Juliet can be combined with our modular systems Echo and Delta or installed alone with a Delta or Echo post. The swing door is also available with a wheel. Juliet is made of the flexible material polyethylene.

The swing door opens up to 180°, and returns automatically to its original state (closed) with hydraulic hinges. The self-closing mechanism increases user comfort and the sticker for visualization helps to quickly find the passage.

The mounting material is included in the delivery.

Width: 800 mm / 1000 mm / 1200 mm – without wheel

Width: 1500 mm / 1750 mm / 2000 mm – with wheel

Height: 1200 mm

FACTS

ART. NO	COMPONENTS
