

# WALL PANELS

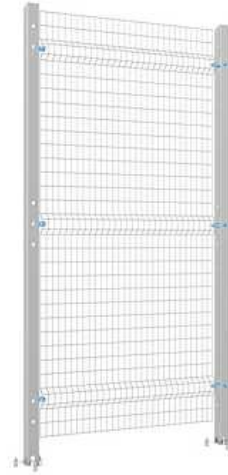

Our frameless stainless-steel mesh panels are made of 4 mm welded wire, strengthened by transversal folds.

The panels are available in 4 standard sizes, making it easy to choose the right size for your needs. Thanks to the frameless design, our panels can easily be adapted on-site to fit your specific requirements.

The mesh size of 28 x 64 mm allows the panel to be installed 200 mm from the hazard, providing a safe machine guard

Height: 2080 mm

Widths: 484 / 996 / 1476 / 1988 mm

## FACTS

ART. NO	COMPONENTS
16100010	Panel BG 2080x484
16100020	Panel BG 2080x996
16100030	Panel BG 2080x1476
