

DOORS

Troax offers a range of hygienic stainless steel doors, including single hinged, double hinged, and single sliding doors, to suit your needs.

The single sliding have a door leaf that is 1500 or 2300 mm, it is equipped with a low friction upper trolley. The single hinged doors are available with 800 or 1000 mm door leaves, while our double hinged doors are available with 800 + 800 mm or 1000 + 1000 mm door leaves.

The door leaves are made of 20x30 mm framed panels with flat welded mesh in 4 and 6 mm wire, providing good stability. Magnetic locks and brackets for safety switches are available as an option for added security.
