PROTECTING PEOPLE, PROPERTY, AND PROCESSES.

"WE WANT TO MAKE THE WORLD SAFE.
OUR PRODUCTS ARE CAREFULLY DEVELOPED
WITH ACCURACY, AND CAPACITY TO MANAGE
TOUGH TESTS IN OUR OWN TEST CENTER.
WE WANT TO ENSURE THE SAFETY AND
QUALITY OF OUR PRODUCTS."

– Tobias Franzén, R&D Manager at Troax

The background features a complex network of thin, glowing lines in shades of orange and red. These lines form various geometric shapes, including circles, rectangles, and triangles. Several lines terminate in arrowheads, pointing in different directions. The overall effect is that of a technical drawing or a futuristic architectural plan. The lines are more densely packed in the upper half of the image and become sparser towards the bottom.

TOGETHER FOR
A SAFE FUTURE

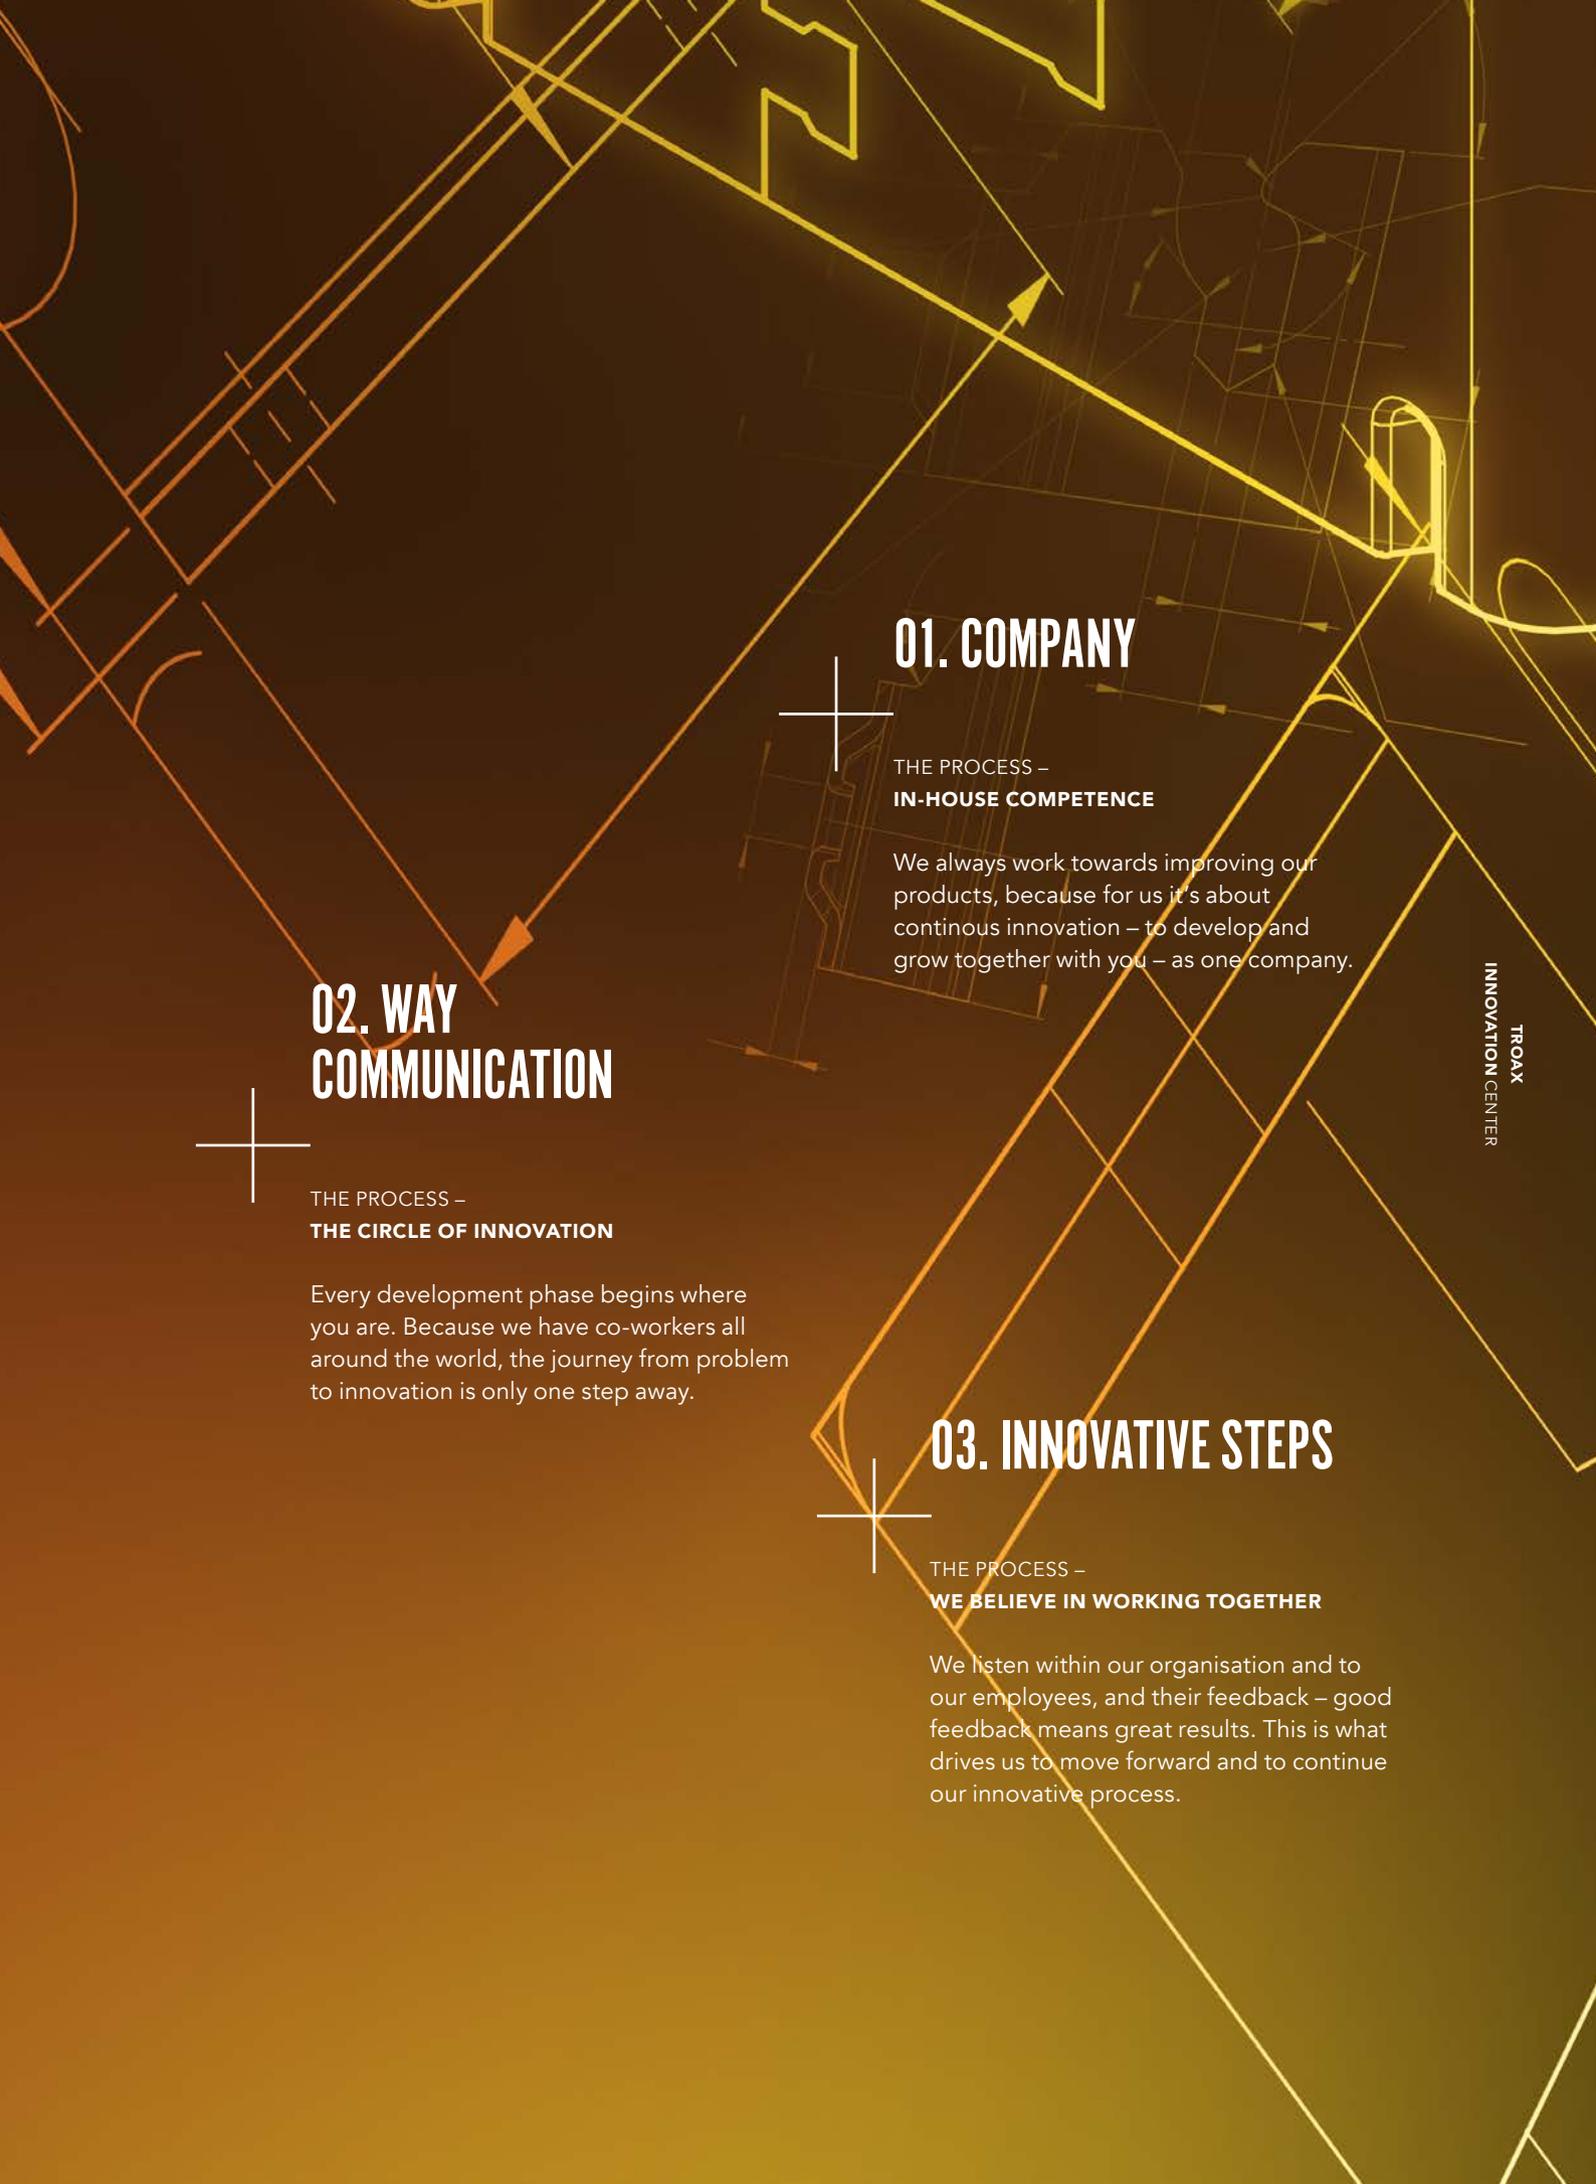

TROAX IS PROUD TO BE THE MARKET LEADER WITHIN OUR FIELD, AND FOR MORE THAN 60 YEARS WE HAVE LET OUR CUSTOMERS LEAD THE WAY TOWARDS MORE INTELLIGENT PRODUCTS TO PROTECT PEOPLE, PROPERTY, AND PROCESSES.

DECADES OF KNOWLEDGE

At first sight, what we do might seem as somewhat plain, but beyond the visuals, there are decades of knowledge and technical developments towards improving our products. Throughout the years we have worked on the most intricate and accurate details, to offer products of the highest quality and exceed the safety standards.

SETTING THE STANDARDS

By being a part of the standards committee, we are present during the processes and can contribute, push and develop standards, instead of only following them. We are therefore able to implement higher standards and directives on the market through our own thoroughly tested products.

01. COMPANY

THE PROCESS –
IN-HOUSE COMPETENCE

We always work towards improving our products, because for us it's about continuous innovation – to develop and grow together with you – as one company.

02. WAY COMMUNICATION

THE PROCESS –
THE CIRCLE OF INNOVATION

Every development phase begins where you are. Because we have co-workers all around the world, the journey from problem to innovation is only one step away.

03. INNOVATIVE STEPS

THE PROCESS –
WE BELIEVE IN WORKING TOGETHER

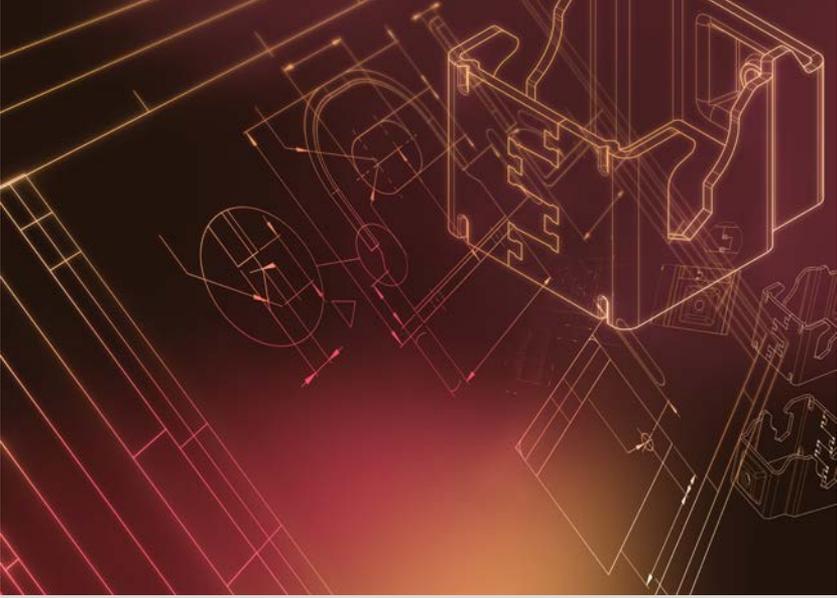

We listen within our organisation and to our employees, and their feedback – good feedback means great results. This is what drives us to move forward and to continue our innovative process.
