

ELAN FIRE RATED DOORS

DOUBLE LEAF DOORSETS

We can supply fire rated double door systems up to 1851mm wide and 2021mm high. If one door is to be wider than the other, we also offer hospital doors, to accommodate the remaining width for the second door leaf. The wider door would need to have the maximum dimensions of a single door below.

SINGLE LEAF DOORSETS

Our single leaf fire rated doors are available to the maximum dimensions of 1100mm wide and 2021mm high.

All fire rated door leaves are available in 4 configurations: full steel, square vision panel, single slot vision panel and double slot vision panel.
