

ELAN

DOUBLE SKIN STEEL.

APPEARANCE AND SAFETY

Elan is a high-quality double skin steel partitioning system which can be used in a wide range of applications where appearance, aesthetics and safety are important. Elan's aesthetic and physical properties make it very appealing for a multitude of working environments, such as factory partitioning, museum display areas, and laboratory offices. Elan is a cost-effective answer to all your space management problems.

This system is available in both non-fire and fire rated versions. Please contact us to discuss your requirements.

- » Integrated blinds are available, which are controlled with a portable dial - keeping the panel face free from unnecessary clutter.
- » Noise reduction capabilities can also be offered with potential noise reduction of up to 36 dB.
- » Completely demountable, enabling one panel to be removed without having to dismantle the whole enclosure.
- » Panels can be supplied in a fire-rated version to BS476: Part 22:1987.

ELAN PANELS

AS (all steel), SG (steel glass), GSG (glass-steel-glass) and SGS (steel-glass-steel) panels all come in the standard sizes below. A width of 1000 mm is available if the height is below 2438 mm.
