

Sigma Doors

Single Skin Steel Doors

Sigma hinged doors are popular access points in factories, warehouse environments and paint plants.

Both single and double doors options are available within the Sigma system. With a variety of accessories to choose from the Sigma door system is the perfect solution for numerous applications.

Facts

The doors are manufactured using box sections to strengthen the structure making it safe from an intruder.

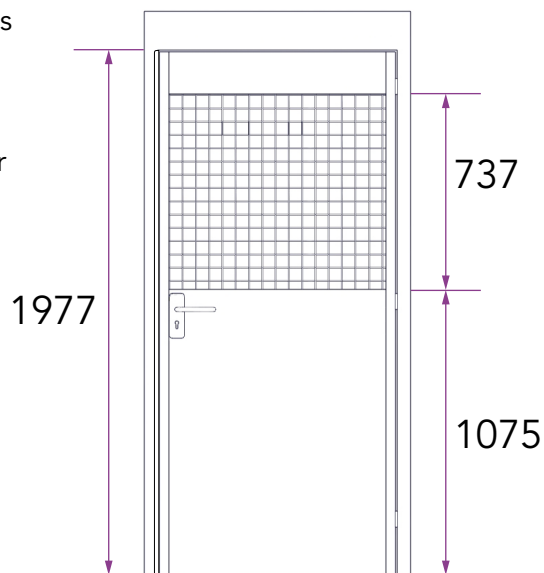

As standard stainless steel hinges and a 3 lever lock and handles are provided with the Sigma doors.

Single Door:

	Panel Height (mm)		
Panel Width (mm)	2438	2743	3048
