

Quick and easy access

Rapid Fix has been developed in response to market and customer needs for a quick and flexible access solution e.g. when carrying out maintenance.

The lower bracket has a slot that the panel hooks into and the upper bracket has a unique locking mechanism that snaps the panel into the correct position. The panel is released by using an Allen key.

Rapid Fix system meets the requirements of the Machinery Directive and all components are held captive in the guard even when the system is disassembled.

The Rapid Fix system can easily be combined with other Troax systems, like Smart Fix.

FACTS

System Posts

Post 60x40 x1,5 mm

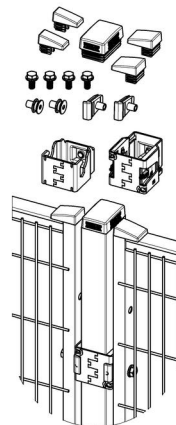

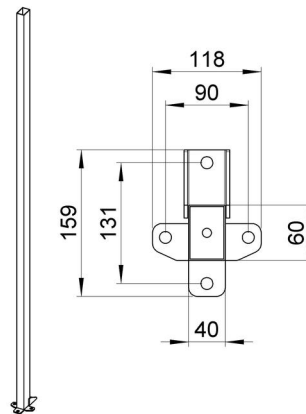

- 1400 mm height
- 2200 mm height
- 3000 mm height

Standard colour is grey RAL7037 and black RAL9005. Height 1400 mm and 2200 mm is also available in RAL1018. Any colour of your choice can be offered.

System brackets

- Kit Bracket RF (blocked/unblocked)
- Kit Bracket RF Corner Right (blocked/unblocked)
- Kit Bracket RF Corner Left (blocked/unblocked)
