

A strong and proven machine guard

Smart Fix is a well-proven safe guard system that includes mesh panels, posts, brackets and a smart fixing method. Choose among a broad variety of doors, locks and accessories to customize your installation.

Smart Fix can be adjusted to compensate for uneven floors and it's possible to alter the angle of the corner brackets up to 180 degrees. The Smart Fix system can easily be combined with other Troax systems, like Rapid Fix.

Smart Fix system meets the requirements of the Machinery Directive as the components are held captive in the guard even when the system is disassembled.

FACTS

System Posts

Post 60x40 x1,5 mm

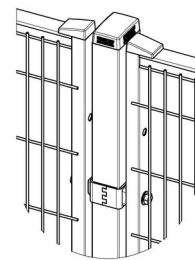

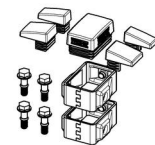

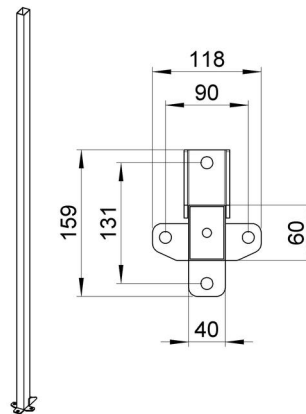

- 1400 mm height
- 2200 mm height
