

# Titan Doors

## Double Skin Steel and Laminate Doors

Titan hinged doors are available in steel or laminate. Its flush finish compliments the Titan partitioning range perfectly to create clean fluid environments.

The Titan doors have been specially designed to keep dust traps to an absolute minimum ensuring a hygienic environment can be maintained.

## Facts

Steel Titan doors are constructed with double steel skin with a bonded core. The laminate doors are available with flush glazed vision panels.

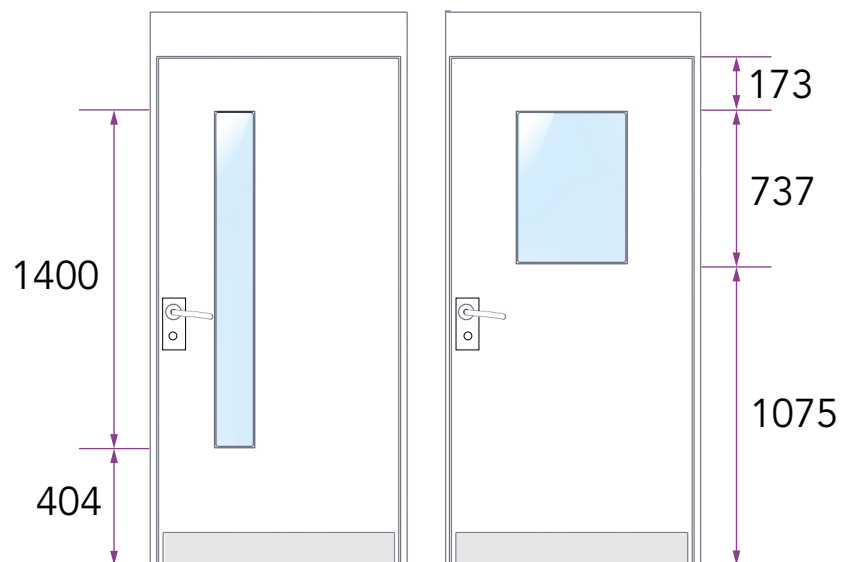

As standard both door types come with stainless steel flush fitted hinges, push plate, pull handle, 200mm deep kick strip and door closer all with a satin finish.

### Single Door:

	Panel Height (mm)		
Panel Width (mm)	2390	2695	3000
900	✓	✓	✓

### Double Door:

	Panel Height (mm)		
Panel Width (mm)	2390	2695	3000
1851	✓	✓	✓
