

EDGE COVER

The Edge cover is a metal reinforced plastic cover that can be used on the sharp mesh-edges that occur when performing cut-outs within the mesh panel.

The cover is available in both black and grey to fit our standard black and grey panel colours. For larger installations, you can buy the Edge Cover in a 25 meter roll, or for just small cut-outs, the black version is available in 2 meter lengths.

FACTS

| ART. NO | COMPONENTS |
|----------|---------------------------------|
| 29500700 | Edge protection 14,5x9 2m Black |
| 29500701 | Edge cover 14,5x9 25m Grey |
| 29500702 | Edge cover 14,5x9 25m Black |
