

WIRE TRAY SYSTEM

The wire tray system fits easily to Troax machine guarding range. You can choose to only buy the consoles to fix the wire trays to, or the whole system from Troax.

The consoles are available in two sizes to fit a wider and a smaller variant of wire tray. You can fit the console to either our standard 60x40 posts or the stronger 80x80 posts. There is also variant available that fits to the Smart Fix bracket, which gives additional mounting options on the post.

The wire trays are available as standard in two sizes; 100 mm and 200 mm wide x2200 mm long. The trays are easily cut on-site using a bolt cropper, to fit in corners and endings.

FACTS

ART. NO	COMPONENTS
89100190	Wiretray post console 100
