

POST 80X80

The 80x80 mm post is assembled together with the Strong Fix system. It's available in three heights as standard: 1,400 mm, 2,200 mm and 3,000 mm. The posts can be cut to any required height and also extended, using the extension bracket.

The stronger 80x80 mm post is suitable for environments where there is a risk of collision or impact with objects. It's tested to withstand impacts up to 4500 joules, and as a standard solution together with the ST30 panels and the Strong Fix system, it withstands an impact of 2500 joules.

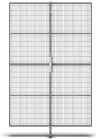

FACTS

ART. NO	COMPONENTS
29801521	Post 80x80x2200
29801531	Post 80x80x3000
